

I am referencing "MB Docket No. 04-233." My family and I have come to love K-Love and if the FCC changed the current status we will no longer be able to access this wholesome family channel on our radio dial. Klove benefits my children and encourages them to be more productive members of our society. Please do not take this away from us. I believe lives are encouraged and this station is an asset to our community. thank you Synora Dabrowski
